Tutorial : Getting Started With Convolutional Neural Networks

Jeremy Pinto
Applied Research Scientist, Mila
jeremy.pinto@mila.quebec

CNN Tutorial

- Task#1: Train a CNN on MNIST
  - Get familiar with the Conv2D API (in PyTorch)
  - Write a training loop for CNNs
  - Implement Batch Norm on MNIST
  - Analyse and compare the results.

- Task#2: Transfer learning on ants and bees
  - Train a ResNet-18 architecture from torchvision
  - Adapt it to the new dataset
  - Study the impact of transfer learning vs. training from scratch
  - Implement data augmentation
